## **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

**2.** Rejections not maintained are withdrawn.

## Claim Rejections - 35 USC § 112

**3.** The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Newly added claim 6 is rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The length and compositions of short fiber are critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

More particularly, it appears from the Specification (e.g., Example 1 at page 8 of Specification) that the length and compositions of the short fibers are the point of novelty, as otherwise the extremely broad claim reads upon the prior art.

## Response to Amendment

5. The Examiner wishes to note that in newly amended claims 1 and 2, Applicant attempted to further clarify the limitation of "the short fibers". However, it is noted that

Application/Control Number: 09/647,748

Art Unit: 1771

the improper transitional term "comprising" still fails to exclude the wood pulp fiber taught by Canary.

With respect to Applicant's Response arguing that "the Examiner has not put forth any prior references ..." (Response, page 3, 4<sup>th</sup> paragraph), the Examiner notes that in section 4 of Paper No. 4, the Examiner has clearly provided a reference by Canary as teaching a wood pulp has a fiber length between 2 and 5 mm, which reads on the instant claimed short fiber length within the range of about 3 to 20 mm. Further, the Examiner notes that it appears that the prior art reference is irrelevant to whether the Markush group is open or close ended.

6. Claims 1-3, 5 and newly added independent claim 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over NITTO DENKO CORP in view of Canary, substantially for the reasons set forth in section 4 of Paper No. 14, section 5 of Paper No. 11, and section 4 of Paper No. 6, together with the following additional observations.

For the newly added independent claim 6, it is noted that Canary teaches that layer 1 generally has between about 10 and 40 wt. % polyolefin fibers; the fibrils of the polyethylene have an average length between about 0.6 and 1.2 mm and a maximum length of about 2.5 mm. Layer 1 also contains a softwood pulp fibers with an average length between about 2 and 5 mm. Further, layer 2 generally has between about 40 and 80 wt. % polyolefin (column 3, lines 49-60). In the absence of the fiber length in claim 6, the Examiner determines that the polyolefin fibers taught by Canary is "short fiber", i.e., shorter than pulp fibers. As such, Canary's teaching clearly reads on the

Application/Control Number: 09/647,748

Art Unit: 1771

748 Page 4

limitation of the instant claimed invention as both layers having a blend of a polyolefin

short fibers to wood pulp less than 50%.

7. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Victor S Chang whose telephone number is 703-605-

4296. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Terrel H Morris can be reached on 703-308-2414. The fax phone numbers

for the organization where this application or proceeding is assigned are 703-872-9310

for regular communications and 703-872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is 703-308-

0661.
